Dedicated engineering units perform services vital to on-time turnarounds and departures, such as gate push backs of commercial and military aircraft; scheduled maintenance of motorized and non-motorized ground support equipment, and maintenance of NAS facilities. The engineering department, which includes an operation control center (OCC), is typically located at an airport's ramp area ...

[Talk:Aircraft maintenance - Wikipedia](#)

In addition to aircraft's age, Papakostas et al. stated that elements that affect the maintenance cost are equipment and facility costs, supplies and logistics costs, labor cost, and overhead. Therefore, it is clear that each maintenance check has different cost depending on aircraft's age and the required equipment, material, and labor. For example, a C check has longer duration and more ...
