Burglars Can't Be Choosers is the first book in a series by Lawrence Block, a master of crime fiction and mysteries. The main character, Bernie Rodenbarr, is an unlikely 'hero', relatable, likable, flawed and whity. The only thing is that Bernie is a gentleman burglar, he breaks into peoples houses, steals their stuff and that's the jist of it. Which is not a bad thing! I still found him ...

Maybe it is an exaggeration, but I believe that Lawrence Block and his debut series Burglars Can't Be Choosers is power packed with lots of wit, lots of plot and dialogue, and interlaced with the kind of interesting material you want to curl up in bed and read by your bedlight. This is such a good book that people seeking to improve their standard of English should look here! The pace is fast ...

The amazing thing about Burglars Can't Be Choosers is how readily the author makes you believe Bernie really is a gentleman cat burglar. The book is not filled with research how to pick locks or fence hot jewels, but enough detail is provided to make the character seem genuine and authentic--like his musings on how a priest's robe is the perfect disguise to case an apartment building or his ...

Do you think Burglars Can't Be Choosers needs a follow-up book? Why or why not? Yes, I'm looking forward to finding the rest of the series. The review I read described Bernie as a Any additional comments? Bernie is a thief, and unashamed of it. In fact he's proud of his professionalism. At the outset I couldn't imagine admiring, respecting, or ...

Burglars Can't Be Choosers . By Block, Lawrence . HarperTorch ISBN: 0060582553 . Chapter One. A handful of minutes after nine I hoisted my Bloomingdale's shopping bag and moved out of a doorway and into step with a tall blond fellow with a faintly equine cast to his face. He was carrying an attaché case that looked too thin to be of much use. Like a high-fashion model, you might say. His ...

We present the development of nanoscale pH sensors based on functionalized silver nanoparticles and surface-enhanced Raman scattering (SERS). The SERS spectrum from individual silver nanoparticle (50?80 nm in diameter) clusters functionalized with 4-mercaptobenzoic acid shows a characteristic response to the pH of the surrounding solution and is sensitive to pH changes in the range of 6?8.
