

FIRST GLOBAL CRYPTOCURRENCY BENCHMARKING STUDY

Dec 04, 2020

[First Global Cryptocurrency Benchmarking Study](#)

This is the first study to systematically investigate key cryptocurrency industry sectors by collecting empirical, non-public data. The study gathered survey data from nearly 150 cryptocurrency companies and individuals, and it covers 38 countries from five world regions. The study details the key industry sectors that have emerged and the different entities that inhabit them.

[GLOBAL CRYPTOCURRENCY BENCHMARKING STUDY](#)

The first global cryptocurrency benchmarking study presents a systematic and comprehensive picture of a rapidly evolving industry, illustrating how cryptocurrencies are being used, stored, transacted and mined. The study gathered non-public data from more than 100 cryptocurrency companies and over 30 individual cryptocurrency miners in 38 countries around the world via secure web-based questionnaires, capturing an estimated 75 per cent of the cryptocurrency industry. The study ...

Bei der Global Cryptocurrency Benchmark Study ist das anders. Die wurde zwar bereits in der ersten Jahreshälfte 2017 veröffentlicht und damals auch hier und da auf Blogs und Newsseiten erwähnt. Insgesamt hat jedoch noch nicht die Beachtung gefunden, die sie eigentlich verdient hat. Denn wer sich für das Bitcoin-Ökosystem als Ganzes interessiert, findet hier gleich eine ganze Reihe ...

Based on various studies and surveys in recent years, we were able to derive the European share of the global market size of cryptocurrencies to be around 30%. Given the progressive regulation, we expect that the European share of the worldwide cryptocurrency market will gain momentum in 2020 and 2021 and rise to around 35%, where it will remain on a constant level from 2021 onwards. Also, our ...
