Four Corners: Infinite Perspectives The geology, the ecology, the human history of the Four Corners area, the Colorado Plateau surrounding the intersection point of Arizona, New Mexico, Colorado, and Utah, is infinitely interesting. It teaches us that if we dig deep, we can learn so much about our whole world and how generations of peoples have interacted with it from a one single place. In "Four Corners," Kenneth Brown attempts to give a sweeping perspective. He discusses:

One of the most intriguing Hopi legends involves the Ant People, who were crucial to the survival of the Hopi—not just once but twice. The so-called “First World” (or world-age) was apparently destroyed by fire—possibly some sort of volcanism, asteroid strike, or coronal mass ejection from the sun. The Second World was destroyed by ice—Ice Age glaciers or a pole shift. During these ...
