To do this, we draw a straight, vertical line up from 60 on the Maths axis until we hit the line of best fit.. Then, we draw a horizontal line across from that point to the English axis. It touches that axis at 50, so 50 is the predicted English grade.. The point (60, 50) on the graph is right in the middle of the data collected. When we make predictions within the range of our data like this ...
