### [Assessment in Mathematics Education | SpringerLink](#)

Assessment in mathematics and numeracy is more than forming judgements about a learner's ability. It monitors the learner's understanding of the mathematical language, concepts and skills and what they need to do to succeed. This requires: an understanding of how learning develops; what skills and knowledge learners need to progress; the common misunderstandings that can delay learning ...

### [Maths Summative Assessment Task Guidelines](#)

Formative assessments are paramount in the math classroom. There are some assessments that are more formal than others, but you have to plan them in order to make sure they happen. Also, you shouldn't do assessments just because you're supposed to do them. As teachers, we use, and value, formative assessment because they inform our feedback to students and the way we'll deliver ...
