Bodies, blood, and mystery. Ravens Blood takes readers on a fantastic journey with archaeologists and main characters Angeline Lisbon and Jake Lalonde. Angeline must rescue her fiancé, Jake, who has disappeared and is suspected of murdering a colleague. I loved this book despite not reading the first three in the series. Cannon fills her readers in and does not leave them wanting for adventure or great characters.

Raven's Blood should be the next blockbuster thriller we get to watch, once Hollywood catches up with Deborah Cannon, author of mythology and archeology thrillers. Reading her novel, I kept encountering juicy elements of Dan Brown's Da Vinci Code, Lucas/Spielberg's Indiana Jones, and similar adventuresome fare.
