The Language of Science. The main reason students find it difficult to understand science is because of all the hard to write, spell and read words. Actually, scientific vocabulary is a hodge podge of little words that are linked together to have different meanings. If you learn the meanings of the little words, you'll find scientific vocabulary much easier to understand. Use this list to ...

Surfing for science. Surfers around the world could gather far more data and the researchers speculate that future versions of the instrument might be able to measure salinity or pollutants. "We have also been testing sensors to measure water salinity," added Bob Brewin. "Our next steps will be to expand the project with more sensors and more surfers." Jamie Shutler, a scientist from ...

Introduction to Surfing and Surfing Science Wave Formation. Ocean waves are formed by low-pressure storm systems far out at sea, or by localized onshore winds. Waves traveling from a long distance away are called ground swells , and travel across the ocean in orderly groups called sets . Sets of waves generally have between three and eight waves, but can have more, and can travel solo, though ...
